

# The UN-GGIM Integrated Geospatial Information Framework and the status of the High-Level Group of the IGIF

Mikael Lilje (Sweden)

**Key words:** Capacity building; CPD; e-Governance; GIM; GSDI; Land management; Legislation; Professional practice; Keyword 1; Keyword 2; Keyword 3

## SUMMARY

The High-Level Group of the Integrated Geospatial Information Framework (HLG-IGIF) aims to: provide the strategic leadership, promotion, coordination, planning and oversight to successfully sustain the uptake and implementation of the IGIF; explicitly demonstrate the societal value and impact of the IGIF, and associated progress towards enabling the achievement of the SDGs; provide expertise and advice to assist countries in their implementation of the IGIF at the country level; and mobilize needed resources for implementation and to maintain the momentum and evolving refinement of the IGIF with Member States and other key stakeholders.

This presentation aims to provide the audience with an update on the status of the workplans for the three working groups (Communication, Strengthen Capacity Development and Mobilize Sustainable Funding).
